

course announcement:

AUTUMN, 2008

MAT 598

*Recent Advances in Algebra
and Number Theory*

NANCY CHILDRESS

LINE NUMBER: 85618

TIME: TUESDAY/THURSDAY 3:00 – 4:15 PM

CREDITS: 3

DESCRIPTION: In consultation with me, each student will select a topic from the recent research literature in algebra/number theory. The course will be divided into sections, one for each student, during which that student's topic will be explored in depth.

PRE-REQUISITES: Abstract algebra (including Galois theory), other advanced background as needed for your particular project. Please contact me before the term begins to discuss possible topics for your project.
