(480) 965-4440 / 965-3951

Academic Background

Ph.D. Statistics, 1987, University of Wisconsin-Madison. Minor: Mathematics.

Advisor: Mark Finster

B.S. Mathematics, 1982, Calvin College, Grand Rapids, Michigan. Minor: Computer Science.

Professional Experience

2004–present	Thompson Industries Dean’s Distinguished Professor of Statistics, Department of Mathematics and Statistics, Arizona State University
1999–present	Affiliated faculty, ASU Center for the Study of Law, Science, and Technology
2003–present	Research Member, Laboratory for Statistics and Probability, Carleton University
2000–2004	Professor, Department of Mathematics and Statistics, Arizona State University
1994–2000	Associate Professor, Department of Mathematics, Arizona State University
1998, spring	Visiting Scholar, Arizona State University College of Law
1996, fall	Visiting Scholar, Laboratory for Statistics and Probability, Carleton University
1994, summer	Visiting Professor, Department of Statistics, Stanford University
1990–1994	Assistant Professor, Department of Mathematics, Arizona State University
1987–1990	Assistant Professor, School of Statistics, University of Minnesota
1987	Lecturer, Department of Statistics, University of Wisconsin-Madison
1986–1987	Biostatistician, University of Wisconsin Clinical Cancer Center
1983–1986	Teaching and Research Assistant, University of Wisconsin-Madison
1985	Statistical Consultant, University of Wisconsin-Madison Center for Health Systems Research and Analysis
1982	Computer Programmer, NASA Goddard Space Flight Center, Greenbelt MD

Fellowships and Awards

Elected Member, International Statistical Institute, 2004

Named Thompson Industries Dean’s Distinguished Professor at Arizona State University, 2004

Gertrude M. Cox Statistics Award, 2003 for significant contributions to statistical practice (selected to be first recipient of this annual award)

Fellow, American Statistical Association (elected 2000)

ASU College of Liberal Arts & Sciences Interdisciplinary Fellowship, Spring 1998

Rinck Memorial Mathematics Award, Calvin College, 1982

Recent Grant Support

- National Science Foundation: “SCREMS: An Interdepartmental Computing Environment for Statistical Research,” 2007-2008. Renate Mittelman, PI; Sharon Lohr, Randy Eubank, Doug Montgomery, and Roger Berger, co-PIs.
- National Science Foundation: “Spatial and Small Area Estimation Problems with Application to Large-Scale Surveys,” 2006-2009 (Sharon Lohr, PI with Ananda Majumdar, co-PI).
- National Science Foundation: “Project Pathways: Opening Routes to Math & Science Success for All Students,” 2004-2006 (Senior investigator; Marilyn Carlson, PI).
- National Science Foundation: “Developing a Professional Learning Community Model for Secondary Precalculus Teachers: A Model for Teacher Professional Growth,” 2004-2006 (Senior Investigator; Marilyn Carlson, PI).
- National Science Foundation: “Small Area and Longitudinal Estimation using Information from Multiple Surveys,” 2001-2005 (PI).
- National Science Foundation: “Scientific Computing Research Environments for the Mathematical Sciences (SCREMS),” 1999-2001. Rosemary Renaut, PI; Frank Hoppensteadt, Eric Kostelich, Sharon Lohr, James Turner, co-PIs.
- Bureau of Justice Statistics: “Longitudinal Analyses using the National Crime Victimization Survey,” 1999-2001 (PI).
- ASU College of Liberal Arts & Sciences Quality of Instruction Award, 1999-2000. Sharon Lohr and William T. Trotter, co-PIs.
- National Institute of Justice: “Victimization, Reporting Crime, and Police Response,” 1997-98 (PI).
- National Science Foundation: “Experiment Design for Variance Functions,” 1993-94 (PI).

PUBLICATIONS

Books

PRESENTATIONS

Workshops Presented

- “Statistical Methods for Survival Data Analysis,” half-day workshop presented for ASU Statistics Week and the Arizona Chapter of the American Statistical Association, Tempe AZ, March 1993 (with J. Wilson).
- “Modern Regression via Smoothing Methods,” half-day workshop presented for ASU Statistics Week and the Arizona Chapter of the American Statistical Association, Tempe AZ, March 1994 (with D. Young).
- “Sampling: Design and Analysis,” full-day workshop presented at the Statistical Society of Canada Annual Meeting, Ottawa ON, June 2000.
- “The Design and Analysis of Sample Surveys” full-day workshop presented at the Joint Statistical Meetings, New York, August 2002.
- “Sample Survey Methods: Recent Developments and Applications,” two-day workshop presented at the Joint Statistical Meetings, Toronto, August 2004 (with J.N.K. Rao).
- “Sample Survey Methods: Recent Developments and Applications,” one-day workshop presented for the Washington Statistical Society, April 2005.

Invited Talks at Conferences

- “Accurate estimation in the general linear model,” at the Institute of Mathematical Statistics meeting, Cincinnati, March 1992.
- “A comparison of weighted and unweighted analyses in the NCVS,” at the American Society of Criminology, New Orleans, November 1992.
- “Some issues in longitudinal analysis of the NCVS,” at the American Society of Criminology, New Orleans, November 1992 (with M. Conaway, presenter).
- “If you’re a crime victim, then you should be a statistic,” Arizona Chapter, American Statistical Association, January 1995.
- “Longitudinal data analysis in the NCVS,” at the ICPSR Summer Program on Quantitative Analysis of Crime and Criminal Justice, Ann Arbor, July 1995.
- “Teaching survey sampling,” invited talk and panel discussion at the Joint Statistical Meetings, Orlando, August 1995.
- “Interval estimation in dual frame surveys,” at the Conference on Current Topics in Survey Research, Lincoln, NE, October 1997 (with J.N.K. Rao).
- “Probability of victimization over time: Results from the U.S. National Crime Victimization Survey,” at Statistics Canada Symposium 98, Longitudinal Analysis for Complex Surveys, Ottawa, ON, May 1998.
- “Density estimation from survey data,” at the Statistical Society of Canada Annual Meeting, Regina, SK, June 1999 (with T. Buskirk).
- “Prevalence of crime in the United States: A longitudinal analysis incorporating partial information,” at the Joint Statistical Meetings, Baltimore, August 1999.
- “Optimal design for variance components and design implementation,” at the Symposium on Selected Topics in Variance Components Analysis, Gainesville FL, January 2000.
- “National levels of school music ensemble participation and relationships with academic achievement,” at the Second Biennial Conference of the Greek Society for Music Education. Thessaloniki, Greece. July 2000 (with Jeffrey Bush, presenter; Jere Humphreys; Douglas Allen).
- “Small area estimation using multiple surveys,” at the Statistical Society of Canada Annual Meeting, Vancouver, June 2001 (with N.G.N. Prasad, presenter).
- “Small area estimation using multiple surveys,” at the Conference in Celebration of Wayne Fuller’s 70th Birthday, Ames IA, June 2001.
- “Estimation using multiple surveys,” at the 53rd Session of the International Statistical Institute, Seoul Korea, August 2001.
- “Estimation problems in multiple frame surveys,” at the International Conference on Recent Advances in Survey Sampling, Ottawa Canada, July 2002.
- “Area-level models using data from multiple surveys,” at the Statistics Canada Symposium on Modelling Survey Data For Social and Economic Research, Ottawa Canada, November 2002 (with L. Ybarra).
- “Small area and longitudinal estimation using information from multiple surveys,” at the Second Seminar on the Funding Opportunity in Survey Research, Washington D.C., June 2003.
- “Sampling frontiers,” keynote address at the annual meeting of the Washington Statistical Society, June 2003.
- “Borrowing strength from other surveys and incomplete administrative data,” at the Joint Statistical Meetings, San Francisco, August 2003.
- “Privacy and survey research: Ethical and legal questions from a researcher’s perspective,” at the 54th Session of the International Statistical Institute, Berlin Germany, August 2003.
- “Resampling methods for MSE estimation with nonlinear small area models,” at the Statistics Canada Symposium on Challenges in Survey Taking in the Next Decade, Ottawa ON Canada, October 2003 (with J.N.K. Rao).

- “Statistical issues for the American Community Survey,” Association of Public Data Users annual meeting, Alexandria VA, October 2004.
- “Bootstrap variance estimation for multiple frame surveys,” Statistical Society of Canada Annual Meeting, Saskatoon SK, June 2005 (with J.N.K. Rao).
- “Survey sampling, theory and applications,” Featured speaker at Vinterkonferens 2007, presented seven 1-hour talks, Borgafjäll Sweden, March 2007: “Survey design and weights,” “Variance estimation methods,” “Variance estimation in applications,” “Graphing data from complex surveys,” “Small area estimation methods,” “Recent developments in small area estimation,” “Multiple frame surveys.”
- “Resampling methods in small area estimation,” invited discussion, Joint Statistical Meetings, Salt Lake City, July 2007.
- “Recent developments in multiple frame surveys,” Joint Statistical Meetings, Salt Lake City, August 2007.

Contributed Papers

- “Variables associated with adolescent sexual risk-taking,” American Public Health Association Meetings, Washington, D.C., 1985 (with B. Chewning, presenter).
- “Family communication patterns and adolescent sexual behavior,” Society for Research on Adolescence meetings, Madison, Wisconsin, April 1986 (with B. Chewning, presenter).
- “The relation of health risk behaviors to onset of sexual activity in adolescence,” 14th Annual Psychosocial Workshops, San Francisco, April 1986 (with B. Chewning, presenter).
- “Accurate multivariate estimation using double and triple sampling,” Joint Statistical Meetings, San Francisco, August 1987.
- “Sample size estimation using variance components,” Biometric Society (ENAR) Spring Meeting, Boston, Massachusetts, March 1988.
- “Estimating design effects when cluster membership is unknown,” Bureau of Justice Statistics workshop on the National Crime Survey, July 1991.
- “Optimal Bayesian experimental design for variance components,” Joint Statistical Meetings, Atlanta, August 1991.
- “The role of weights in multivariate analyses of the NCVS,” Joint Statistical Meetings, San Francisco, August 1993 (with J. Liu).
- “Reporting violent crime to the police: A longitudinal analysis of data from the National Crime Victimization Survey,” American Society of Criminology, Phoenix, October 1993.
- “Reporting violent crime to the police and subsequent police activity,” at the Conference on the Statistical Analysis of Law and Justice Data, San Antonio, June 1995.
- “Jackknife variance estimation in multiple frame surveys,” Joint Statistical Meetings, Anaheim, August 1997 (with J.N.K. Rao).
- “Condition indices and bandwidth selection in nonparametric curve estimation,” Joint Statistical Meetings, Dallas, August 1998 (with K. Prewitt, presenter).
- “Effects of attrition in the National Crime Victimization Survey,” Joint Statistical Meetings, Indianapolis, August 2000 (with L. Ybarra, presenter).
- “Robust estimation of multivariate covariance components,” Joint Statistical Meetings, New York, August 2002 (with A. Dueck, presenter).
- “Methodological issues in the ACS,” Joint Statistical Meetings, Seattle, August 2006 (with G. Kalton, presenter, T. Holt, H. Stern).
- “Choice of randomized design in large-scale education experiments,” Joint Statistical Meetings, Salt Lake City, July 2007 (with B. Jenney, presenter).

“Random forests with survey data,” Joint Statistical Meetings, Salt Lake City, August 2007 (with G. Mendez, presenter).

Invited Lectures at Universities and Research Institutions

University of Illinois (1987); Carnegie-Mellon University (1987); University of Minnesota (1987); National Institute of Neurological Disorders and Stroke (1987); National Institute of Heart, Blood, and Lung (1987); Colorado State University (1990); University of Wyoming (1990); Utah State University (1990); Los Alamos National Laboratory (1992); University of California, Los Angeles (1993); University of California, Santa Barbara (1993, 1994); University of New Mexico (1993); University of Arizona (1994); Stanford University (1994); Carleton University (1996); Statistics Canada (1996); Texas A & M University (1997); University of Texas at Austin (1998); University of Virginia (1998), Iowa State University (1998), University of Nebraska (1999), University of Texas El Paso (1999), University of Alberta (1999, 2000), UCLA (1999), University of New Mexico (2000), University of Nebraska (2000), University of Wyoming (2001), U.S. Bureau of Labor Statistics (2002), Carleton University (2003), Statistics Canada (2003), University of Alberta (2004), Los Alamos National Laboratory (2005), Ohio State University (2005), University of Waterloo (2006), Westat (2008), U.S. Census Bureau (2008).

TEACHING

Courses Taught

Arizona State University

Statistical Consulting—new course developed at ASU
 Applied Sampling Methodology—new course developed at ASU
 Large Sample Inference—new course developed at ASU
 Mixed Models—new course developed at ASU
 Mathematical Methods for Genetic Analysis — new course developed at ASU
 Statistical Genomics—new course developed at ASU
 Theory of Linear Statistical Models
 Mathematical Statistics
 Applied Regression Analysis
 Applied Analysis of Variance
 Experimental Statistics
 Introduction to Applied Statistics
 Elements of Statistics
 Advanced Statistical Inference (taught as independent study)
 Freshman Seminar: Probability and Statistics

Book

Boen & Zahn; Derr
 Cochran; Lohr
 Lehmann; Huber; Shao & Tu
 Jiang; Demidenko
 readings, web sites, new materials developed for class
 Waterman
 Christensen; Ravishanker & Dey
 Bain & Engelhardt
 Neter et al.
 Neter et al.; Oehlert
 Kleinbaum et al.
 Moore & McCabe
 Weiss
 Shao

University of Minnesota

Sampling and Experimental Design
 Sampling Techniques for Finite Populations
 Applied Statistics I: Regression
 Introductory Statistical Analysis
 Probability and Statistics for Engineers

Cochran; John; Silvey
 Scheaffer et al; Cochran
 Weisberg
 Devore & Peck
 Lindgren et al.

University of Wisconsin

Statistical Experimental Design for Engineers

Box, Hunter & Hunter

Advising: Ph.D. students

- Trent Buskirk, Ph.D. Mathematics, 1999. "Using Nonparametric Methods for Density Estimation with Complex Survey Data."
- Joseph Hirman, Ph.D. Mathematics, 2003. "Small Area Estimation of Variance Functions with Application to Assimilation Theory."
- Lynn Ybarra, Ph.D. Mathematics, 2003. "Small Area Estimation Using Data from Multiple Surveys." Lynn was awarded an ARCS Scholarship in 2000. She received the American Statistical Association Gertrude Cox Scholarship in 1999, and the E.C. Bryant award for outstanding graduate student in survey sampling in 2000.
- Amylou Dueck, Ph.D. Mathematics, 2005. "Robust Imputation in Multivariate Hierarchical Data." Amylou was given the Department of Mathematics and Statistics Graduate Student Research Award in 2004. She received an honorable mention in the American Statistical Association Gertrude Cox Scholarship competition in 2002, and the E.C. Bryant award for outstanding graduate student in survey sampling in 2004.
- Yan Lu, Ph.D. Mathematics, 2007. "Longitudinal Estimation in Dual Frame Surveys."
- Guillermo Mendez, Ph.D. Mathematics, 2008. "Tree-based Methods to Model Dependent Data."
- Jennifer Broatch, expected to receive Ph.D. Mathematics, 2008.
- Brenda Jenney, expected to receive Ph.D. Mathematics, 2008. Brenda received the Department of Mathematics and Statistics Graduate Student Research Award in December, 2007.

Advising: M.S. students

- Joanna Liu, M.S. Statistics, 1992. "The Effects of Weights in Logistic Regression Analyses of National Crime Victimization Survey Near-Term Data."
- Michelle Divan-Briley, M.S. Statistics, 1993. "The Performance of Confidence Intervals for Variance Components with Non-normal Data."
- Siyi Sun, M.S. Statistics, 1995. "Longitudinal Nonresponse in the National Crime Victimization Survey: Effects and Models."
- Greg Rodd, M.S. Statistics, 1996. "Interactive Dynamic Graphics for Sample Size Sensitivity Analysis."
- Melissa Fazzari, M.S. Statistics, 1996. "Using Random Variables in Model Selection for Regression."
- Pu Shen, M.S. Statistics, 1998. "Estimates of Domestic Violence from the National Crime Victimization Survey."
- Liming Chen, M.S. Statistics, 1998. "Kmenta and Maximum Likelihood Cross-sectional Pooling with Time Series: Asymptotic Results and Small-sample Comparisons."
- Douglas Allen, M.S. Statistics, 1999. "Participation in Music, Academic Achievement, and Risk Behaviors in Eighth Graders: An Analysis of Complex Survey Data from the National Education Longitudinal Study of 1988."
- Lynn Tobin, M.S. Statistics, 1999. "Time-in-Sample and Attrition Effects on Misclassification and Rates of Violent Crimes in the National Crime Victimization Survey."
- Amylou Dueck, M.S. Statistics, 2002. "Robust Estimation of Multivariate Covariance Components."
- Kelli Schalk, M.S. Statistics, 2003. "Imputation Methods in the FBI Uniform Crime Reports."
- Michele Hardy, M.S. Statistics, 2005. "Evaluation of Stratification and Calibration Weights in Some Data Mining Applications."

Brenda Jenney, M.S. Statistics, 2005. “Regression Diagnostics in Sample Surveys.” Brenda received the ASU Outstanding M.S. Statistics Student Award in 2005.
Burcu Eke, expected to receive M. S. Statistics, 2008.

Advising: undergraduate honors students

Cherie Alf, B.S. Mathematics with Concentration in Statistics, 2006. Undergraduate Honors Thesis: “Cluster of Knowledge: A Study of Sampling Assumptions and Independence in Introductory Statistics Courses.” Cherie received the Department’s Undergraduate Research Award in 2005.
