

LETTER OF CONSENT

Dear Student Volunteer,

During this semester my research colleagues and myself, Dr. Michelle Zandieh, are engaged in the process of developing instructional materials and approaches for this course based on research about how individuals learn mathematical concepts.

The research team consists of Dr. Michelle Zandieh, graduate research assistants, Jessica Knapp, Kristina Burch, and Phil Clark, and undergraduate research assistants, Lisa Tait, Karli Tompkinson, and Lance Levenson.

Your participation will involve being videotaped during class sessions and allowing the copying of your written work for research purposes.

Your participation is voluntary. If you choose not to participate or to withdraw from the study at any time, there will be no penalty. It will not affect your grade. The results of the research may be published, but your name will not be used.

Any videotapes that are recorded and any written work collected as part of this study will be used only with other educators for research or educational purposes. The tapes will be erased or destroyed after the research project is completed.

If you have any questions concerning the research study, please call me at 480-965-2846 or you may also reach me by e-mail at zandieh@asu.edu. If you prefer, you may contact Jessica Knapp in person or by e-mail at knapp@mathpost.asu.edu.

Sincerely,

Dr. Michelle J. Zandieh
Assistant Professor of Mathematics

I give consent to participate in the above study. I understand that I will be videotaped during class and my written work will be copied as outlined above.
