MAT 210 Test 1

HECKMAN

FORM X

Instructions:
• There are ?? pages (including this one) and ?? numbered questions worth a total of ?? points.
• No books or note cards may be used while taking this test.
• No calculators with Qwerty keyboards or ones like the Casio FX-2, TI-89, or TI-92 that do symbolic algebra may be used.
• Every answer requires justification! Show your work. Illegible work may not receive full credit.
• Clearly mark or circle your final answers. If you leave it to the instructor to choose a correct response, the problem will be marked wrong and no credit will be given.
• Do not use your own paper! The Testing Center will provide scratch paper for you. If your final answer is on a sheet of scratch paper, indicate (next to the problem) where it is.
• There is no time limit on this test, but you cannot leave the Testing Center then come back to it.
• Read and sign the Honor Statement below.

Honor Statement:
• I confirm that I have not received any unauthorized assistance on this exam.
• I agree not to use my graphing calculator beyond those uses specifically authorized by the Mathematics Department and my instructor.
• I agree not to discuss this exam with anyone until allowed to do so by my instructor.
• I agree to allow my calculator’s memory and menus to be checked at any time both inside and near the Testing Center and cleared of any entries related to the current test by any testing center proctor or Mathematics Department instructor.
• I understand that failing to sign below or to abide by the statements above results in an automatic zero on this test.
• I understand that I may also receive either an “E” or “XE” grade for the entire course, or be removed from the university completely for failing to comply with this Honor Statement.
